

As with many electronic devices, updates for older systems are no longer possible indefinitely. We also offer to install an update on older systems with a software version lower than 2.1.xxx. Send your system to us and we will install the latest updates on heatapp! base, heatapp! base T2B and heatapp! gateway. Updates via the Internet are then possible again. Your installation remains unaffected. This means that no subsequent reinstallation is necessary. When you get your system back and reconnect it, all components will be found automatically.

**You can have the update installed in our company for a flat rate of Euro 59.50 plus shipping costs per heatapp! system (consisting of 1x heatapp! base and 1x heatapp! gateway). Please transfer the amount in advance to the following account:**

Account: EbV Elektronikbau- und Vertriebs GmbH  
 IBAN: DE6446051240000007302 Sparkasse Burbach-Neunkirchen  
 BIC/SWIFT: WELADED1BUB

**Intended use: Update, first name and surname or company**

Total amount incl. shipping costs within Germany Euro 68,50  
 Total amount incl. shipping costs within EU (outside DE) Euro 74,50  
 Total amount incl. shipping costs outside the EU on request.

The updates will only be carried out after receipt of payment. We will send you the invoice when you return the devices.

Ensure that the goods are properly packaged for transport. We accept no liability for transport damage.

**Return address EbV Elektronikbau- und Vertriebs- GmbH**  
 Reparaturabteilung Werk II  
 Carl-Benz-Str. 40  
 D -57299 Burbach
