

heatapp! drive

heatapp! drive is a wireless actuator for flow-controlling a radiator.

heatapp! drive communicates wirelessly with the **heatapp! gateway**.

Scope of delivery:

- Thermostat **heatapp! drive**
- Batteries 2 x 1.5V AA alkaline
- Adapter M30x1.5 thread
- Adapter Danfoss RA

Article number:: 9600100000

Technical data	
Type of installation	At the radiator
Wireless system	Z-Wave
Z-Wave type	Thermostat
Synchronisation	Every 5 min
Power supply	Batteries 2 x 1.5 V AA alkaline
Battery life	approx. 2 years
Mechanical loading capacity (max. pressure from the valve)	70 N
Spindle movement	2 ... 3 mm at the valve (1 mm/s)
Maximum adjustment travel	4.5 mm
Ambient conditions	
• Storage temperature	-20 ... 65 °C
• Operating temperature	0 ... 40 °C
Colour	Traffic white RAL 9016
Dimensions	Length: 91 mm (incl. RA adapter), Ø: 51 mm
Weight	195 g (including RA valve adapter)
Checked according to the following standards	EN 60730-1, EN 60730-2-9, EN 60730-2-14
